VYSHNAVI PENDELA

SOFTWARE ENGINEER | PYTHON DEVELOPER

Hyderabad, Telangana, India | vyshnavipendela7@gmail.com

https://www.linkedin.com/in/vyshnavi-pendela/ | https://github.com/Vyshnavi12548

PROFESSIONAL SUMMARY

Computer Science undergraduate graduating in 2027 with hands-on project experience building Python applications, command-line tools, data-driven web applications and AI-enabled prototypes. Works with Python, SQL, Git, Flask, Streamlit and data libraries, with project exposure to React, Node.js, Express and MongoDB. Interested in software engineering and Python development roles.

TECHNICAL SKILLS

Programming: Python, SQL, C fundamentals, JavaScript fundamentals, HTML5, CSS3
Frameworks & application development: Flask, Streamlit; project exposure to React, Node.js and Express
Libraries & AI: Pandas, NumPy, Matplotlib, Seaborn, scikit-learn, NLTK; NLP fundamentals
Tools & concepts: Git, GitHub, VS Code, API integration, CLI development, OOP fundamentals, debugging, data structures fundamentals

SELECTED PROJECTS

- **Flux Flow - AI-Powered Customer Retention MVP | Python, Flask, scikit-learn, Pandas —** Built around a simulated e-commerce dataset and a Logistic Regression pipeline to classify customer churn risk. Project workflow includes data generation, preprocessing, model training and a Flask interface that displays prediction status and probability. (GitHub: Vyshnavi12548/AI-Powered-Customer-Retention-for-E-commerce-SMEs)
- **AI Healthcare Assistant | Python, Streamlit, Hugging Face —** Developed a conversational assistant project with voice input, document context, session chat history and a rule-based fallback approach. Includes emergency-keyword prompts and a clear disclaimer that it is not a substitute for professional medical advice. (GitHub: Vyshnavi12548/AI-Healthcare-Chatbot-)
- **Python CLI & Data Visualization Tools | Python, Pandas, Matplotlib —** Created Python project work for command-line task workflows and dataset visualization, emphasizing reusable scripts and communicating data through charts. (GitHub: Vyshnavi12548/CLI-tool; Vyshnavi12548/Data-visualization)
- **Job Portal | React, Node.js, Express, MongoDB —** Full-stack application repository documenting job-seeker and employer workflows, including account access, job listings and application management. (GitHub: Vyshnavi12548/JobPortal)

EXPERIENCE & PROGRAMMES

- **Edunet Foundation | Data Analytics / AI Internship Programme —** Participated in remote, project-based learning in AI and data analytics, including Python and analytics-oriented work.
- **SmartBridge | ServiceNow Virtual Internship —** Completed virtual platform learning and practical exercises in the ServiceNow ecosystem.

EDUCATION

B.Tech, Computer Science and Engineering | TKR College of Engineering and Technology | Expected 2027 | CGPA: 8.16/10

SELECTED CERTIFICATIONS & LEARNING

Oracle Cloud Infrastructure - Data Science Professional | Oracle - AI Foundations Associate | IBM - Python for Data Science | IBM SkillsBuild - Artificial Intelligence Fundamentals with Capstone | Salesforce - Agentforce Specialist
